IRMER 2000 Regulations: Cavendish Imaging does not routinely report upon scans or radiographs. To comply with the IRMER 2000 regulations all radiographs and scans are required to be reviewed and reported into the clinical notes by the referring practitioner or by a radiologist. Cavendish Imaging strongly recommends that all CT and other radiographic examinations should be reported upon to rule out the possibility of coincidental pathology. Cavendish Imaging offers a reporting service by a Consultant Radiologist.

I have added my patient's **medical history** in the notes above for this radiographic examination to be reported upon by your Consultant Radiologist
 I will make my own reporting arrangements

Standard Terms & Conditions

Cavendish Imaging services and products aim at assisting professionals and patients in diagnosis and treatment planning. Cavendish Imaging is not providing and is not responsible for providing any interpretation of images or clinical service such as diagnosis or treatment.

Radiology reports can be ordered through Cavendish Imaging but are provided under the named Radiologist's professional responsibility, not under the responsibility of Cavendish Imaging.

Cavendish Imaging endeavours to provide the very highest quality results, however Cavendish Imaging will not accept any liability for incorrect or incomplete information on the referral form or inappropriate or inadequate patient preparation which may compromise the value of the final results.

Cavendish Imaging reserves the right not to accept referrals in such cases. Cavendish Imaging must be notified 24 hours in advance of the patient's visit to the imaging centre if a particular urgent service is required.

Patients who are self-paying for the service that Cavendish Imaging provides, need to settle their accounts on the day of their order. If not, delay in the processing of the order, or, the delivery of the complete service may occur.
